

Portfolio Design Brief

Basic Scope

- Landing Page
- “About Me” Section
- “Showcase” Section
- “Contact Me” Section
- Blog Main Page
 - Blog Posts

Basic Scope - Sitemap

Design Considerations

- Colours – Dark theme
 - Personal Preference
- Layout – Grid base with header + footer universal across all pages
 - Allow for conversion to single page app

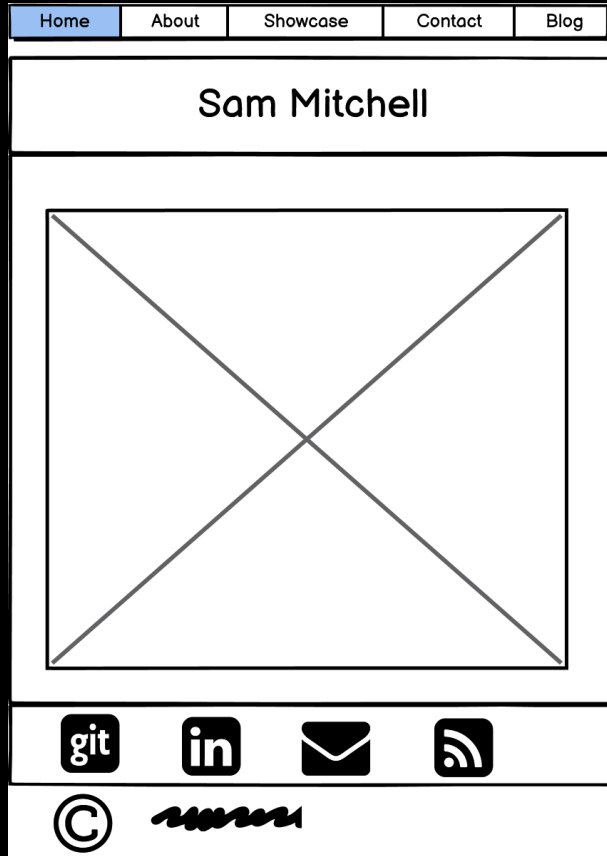

Common Components

- Header
 - Contains Navigation Menu
- Footer
 - Social Media Links and Copyright information

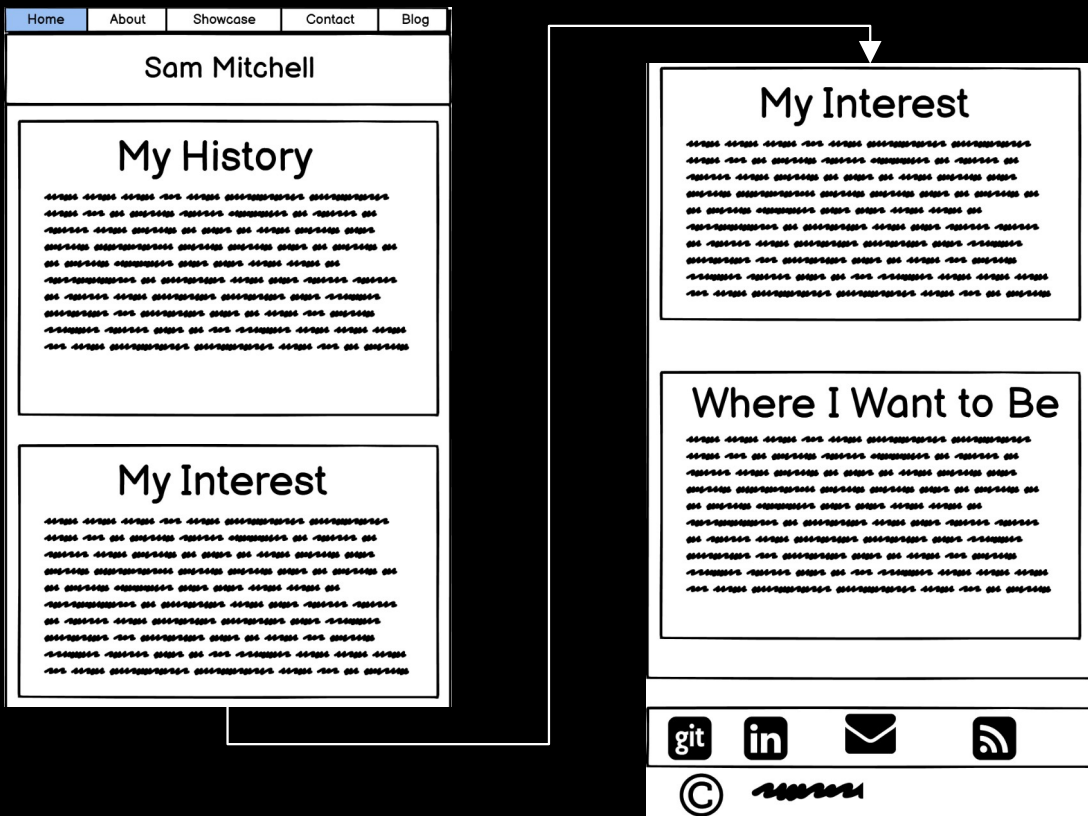

Common Components

- Cards
 - Used to contain linked information and visually separate
 - Scaling of background colour and shadows to show depth in stacked containers

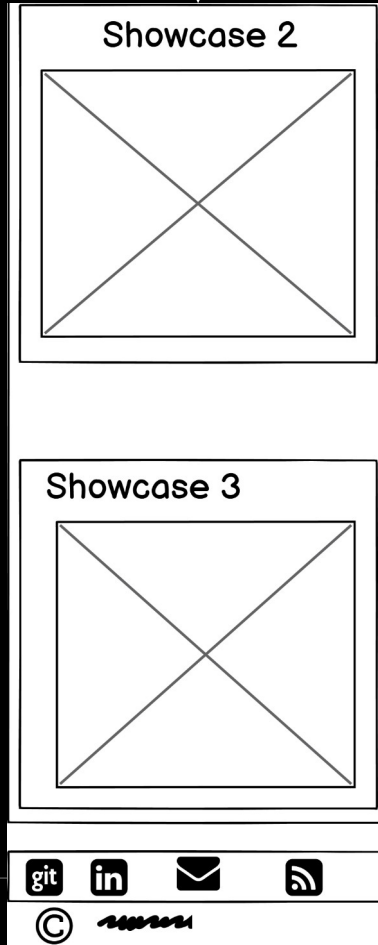

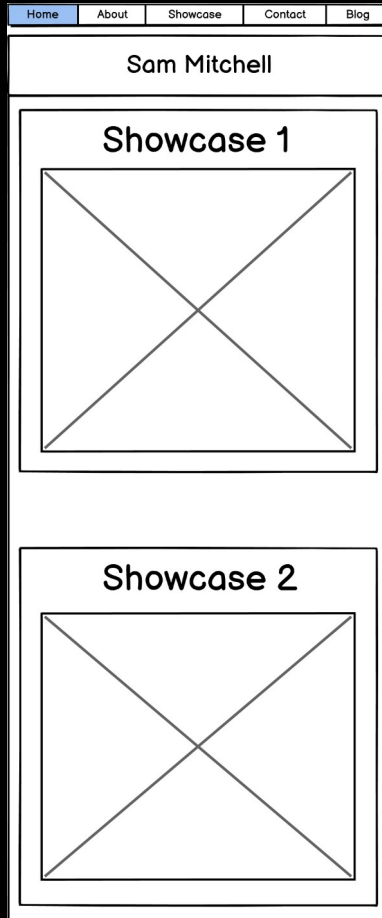

Site Walkthrough – Landing Page

Site Walkthrough – About Me

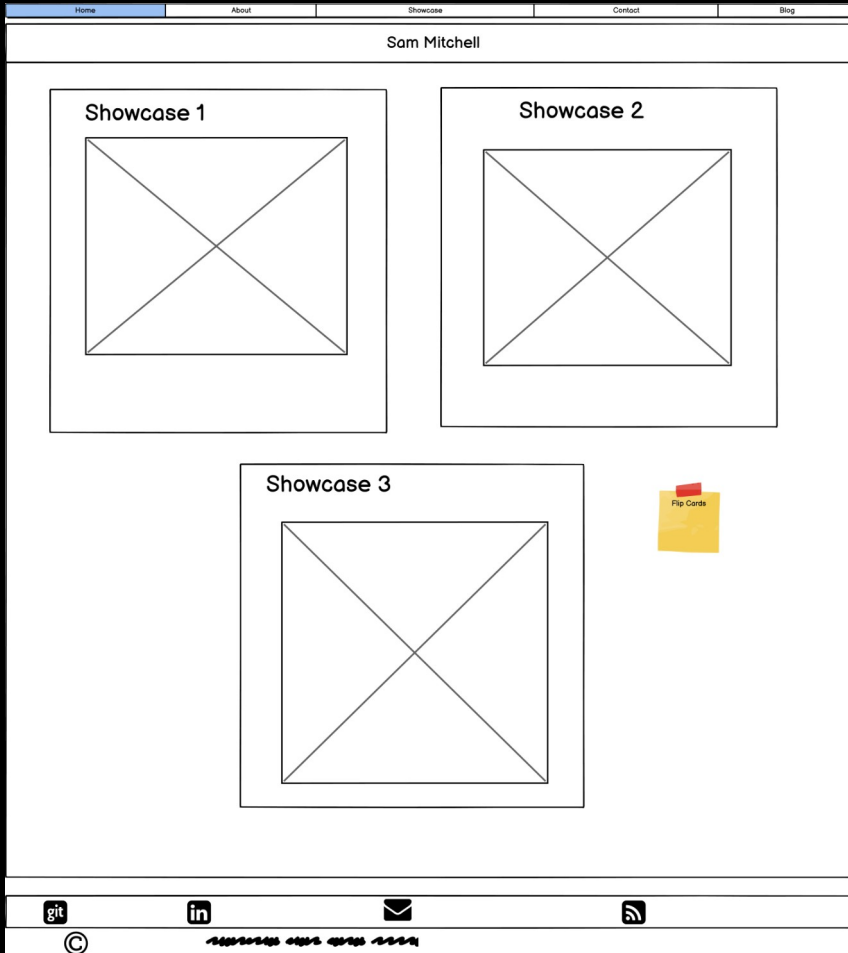

Site Walkthrough – Showcase

Flip Cards with graphic
on front and text on rear

Site Walkthrough – Showcase

Flip Cards with graphic
on front and text on rear

Site Walkthrough – Contact

A wireframe of a contact page for Sam Mitchell. The page has a navigation bar with links: Home, About, Showcase, Contact, and Blog. Below the navigation bar is a header section with the name "Sam Mitchell". The main content area contains a large rectangular box with two horizontal input fields and a larger rectangular area below them, likely for a message. At the bottom of the page is a footer section with social media icons for git, in, an envelope, and S, followed by a copyright symbol and a signature.

Web form to allow messages to be sent without exposing my email address

Site Walkthrough – Blog

Major Deviations

- Addition of separate sidebar for navigating blog
 - Contains recent posts

Any Questions?
